### RADIX PREMIUM DOMAINS YOY GROWTH

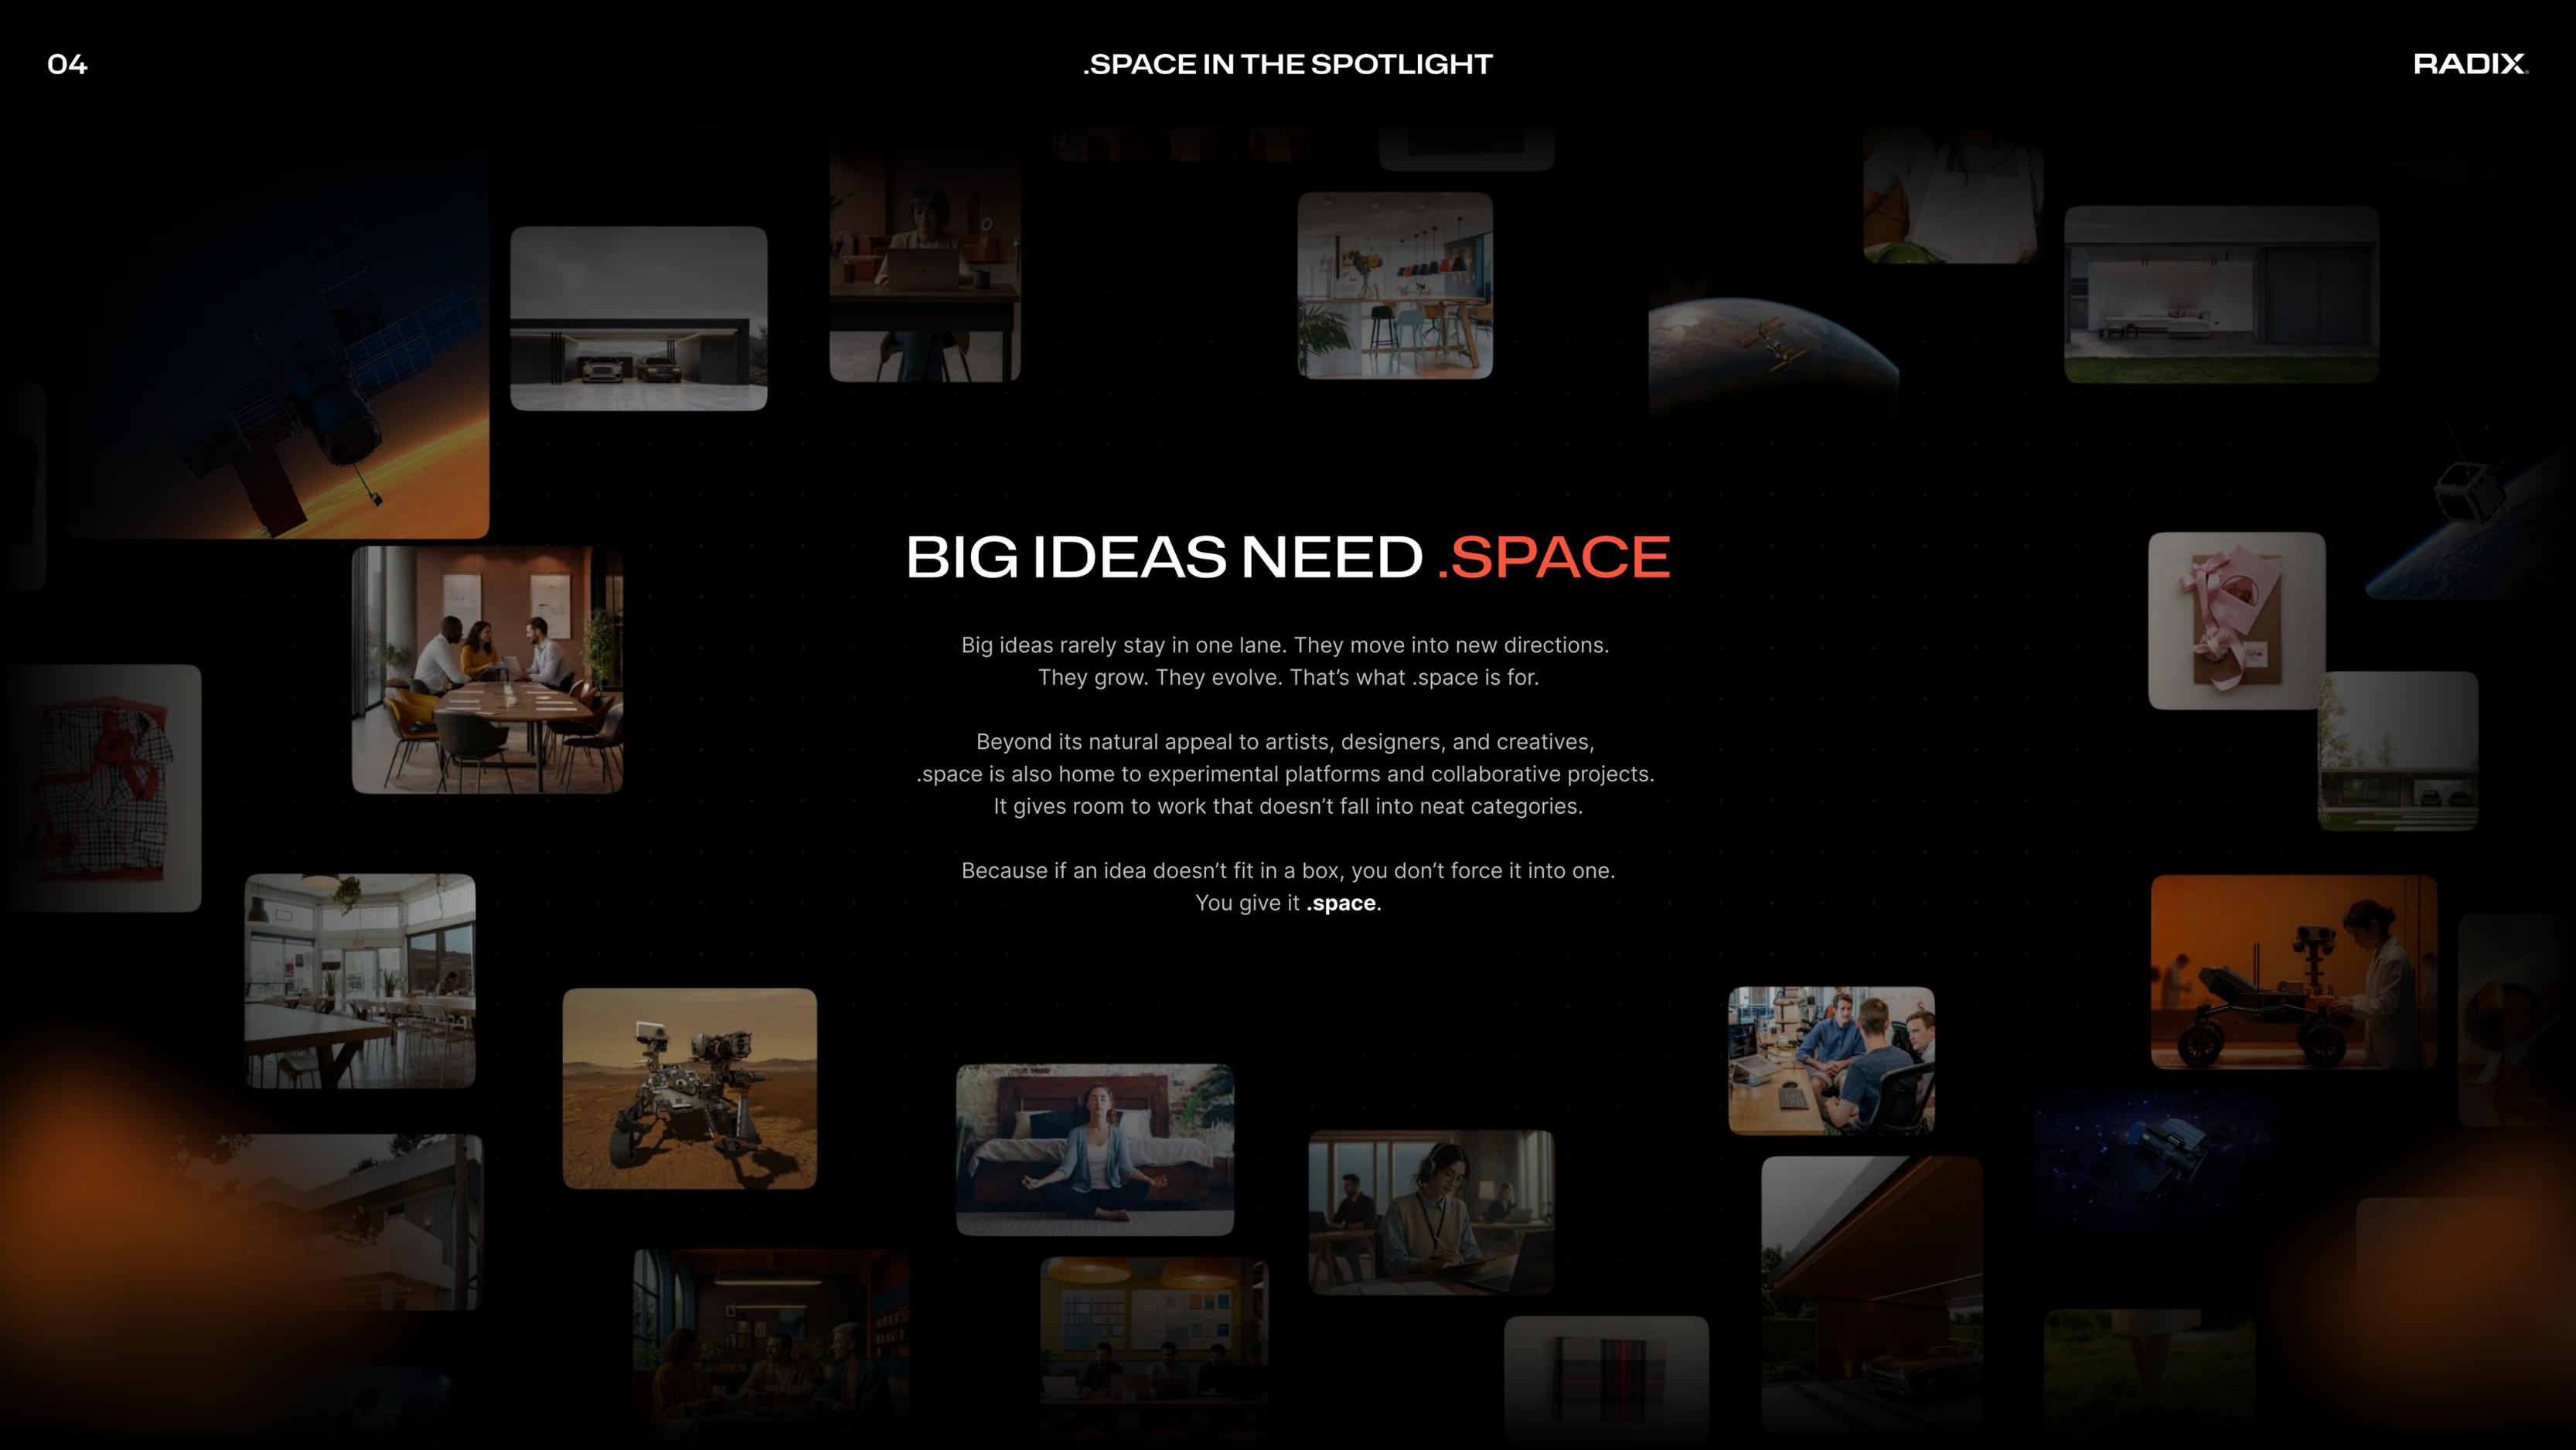

# BIG IDEAS NEED .SPACE

Big ideas rarely stay in one lane. They move into new directions.  
They grow. They evolve. That's what .space is for.

Beyond its natural appeal to artists, designers, and creatives,  
.space is also home to experimental platforms and collaborative projects.  
It gives room to work that doesn't fall into neat categories.

Because if an idea doesn't fit in a box, you don't force it into one.  
You give it **.space**.

# MORE THAN ONE KIND OF .SPACE

Premium .space registrations show up across more than one industry.

From logistics and hospitality to AI, coworking communities, and space-tech, wherever big ideas need room, they find .space.

 **lemon.space**

lemon.space is a design-led hospitality brand offering fully furnished stays with contactless guest experiences in Cairo.

# DELIVERING THE FUTURE ON .SPACE

Logistics is evolving in real time. And the shift is happening on .space.

**hived.space** is building an all-electric parcel delivery network powered by AI for fast and reliable e-commerce fulfilment. Following a **\$42M** Series B in July 2025 led by NordicNinja, the company is expanding beyond London and scaling a lower-emissions delivery network to challenge traditional last-mile systems.

Built to move differently. Built on .space.
